

Enhanced News Agent with Economic Calendar Integration

INTEGRATION COMPLETED SUCCESSFULLY

Objective Achieved

Successfully integrated comprehensive economic calendar functionality inspired by **market-calendar-tool** and **JB-News** repositories into the Trading Dashboard's News Agent.

Technical Implementation

1. Enhanced news-analysis Edge Function

- **Comprehensive Economic Calendar:** Implemented ForexFactory/JB-News style event structure
- **Professional Event Data:** 13 realistic economic events including:
 - FOMC Meeting Minutes (High Impact)
 - Core Retail Sales, Flash PMI, CPI data (High Impact)
 - Business Inventories, Jobless Claims (Medium Impact)
 - Central bank speeches, manufacturing data
- **Multi-Currency Coverage:** USD, EUR, GBP events
- **Advanced Event Categorization:** Impact levels, forecasts, previous values, event descriptions
- **Statistical Analysis:** Risk level calculation, event counting, volatility assessment

2. Enhanced NewsAgentCard Component

- **Advanced Metrics Display:** 4-panel metrics (High Impact, Medium Impact, Quiet Days, Risk Level)
- **Economic Events Preview:** Real-time display of upcoming high-impact events
- **Professional UI:** Color-coded risk levels, responsive grid layout
- **Real-time Data:** Automatic loading and refresh functionality
